Laura, I can go downtown this afternoon or tomorrow afternoon and can go to the meeting on Wednesday. I should I try to schedule a meeting with Jim Googas before the Wednesday planning board meeting? who else should be informed of this and how?

this is from Judy Doesschate:

I just got off the phone with Jim Googas a few minutes ago. He was briefing me a bit on the planned South Allen apartments that are on the upcoming Planning Board agenda and some of the changes he has made to the plans that he thinks people will view favorably. I noted that with the ward boundary changes, this project is now in the 14th Ward, not the 9th. I suggested that it would be good for him talk to you and possibly to attend the June 5th meeting of the New Scotland-Woodlawn to go over the plans with residents. He said he would be glad to talk to you and attend the meeting.

Jim's cell is 441-8115. I am copying him on this note so the two of you have each other's email addresses as well.

Judy

this is from Jim Sano:

There was numerous meetings and notice given before the Common Council unanimously approved this proposal. South Allen Park was not created as a swap for additional land taken at the golf course, that playground had been in existence when I was a kid and was a worse mess than it was before being shuttered. In order for the parkland to be swamped that is done by the NYS legislature and Assemblywoman Fahy also sent out communications in this regard before she sponsored and passed the swap for North Albany land, I would have preferred something more in the immediate area but that was not an option. As for people not being in the know that is a puzzle since you get the same notifications as I used to and you were always on top of forwarding that info. Matter of fact I did get some input from your list serve.

Jim
